

Dear «Informal_salutation»

If you already completed the on-line questionnaire, there is no need to read further.

If not, only four days remain for you to make your views known in St. Catherine's Financial Feasibility Study. I ask that you help St. Catherine's shape its future by completing the questionnaire today.

The questionnaire link is [On-line Questionnaire](#) and it will be available only until May 21.

More details about the Study are given below.

Most sincerely,
Rev. Mike Mahler, Pastor

Details About Study:

Our parish is conducting an extensive research project to discern our readiness to undertake a significant fund-raising effort, which would raise funds to address our parish's future facility needs. This project is known as a Financial Feasibility Study, and it helps a parish determine the level of interest and understanding on the part of its members related to the perceived needs.

The questionnaire is designed to elicit your views on a Case Statement that precedes the questionnaire. The Statement does not reflect a decision already made. Rather, it is designed to obtain parishioners' views on how to proceed on our facilities' needs. Because no decision has yet been made on any project and all options continue to be under active consideration, your response will influence which option is chosen.

Your responses will not be associated with your name to anyone in the parish, including staff. The information will go directly to an independent consulting firm, RSI. RSI will summarize the responses and will provide parish leadership with the results. The Pastoral Council will then share this summary information with the parish.
